

LE VERVE MEDISPA

Consent for intimate waxing

To The Client:

As the client, you have the right to be informed about the waxing procedure that will be taking place; as well as the risks and benefits so that you may make the decision whether or not to continue with your service. This consent form is an effort to make you better informed. To that end, we encourage you to ask our staff any questions you may have.

Intimate Waxing:

Any client having intimate waxing done on breast, underarm and bikini (including Brazilian), must be fully aware of the process; the aesthetician will come in contact with personal areas of the body to achieve the desired outcome.

Possible Side Effects: As the client, I understand this procedure may cause certain side effects; this includes various forms of inflammation or small breakouts. Taking certain medications may make skin more sensitive and susceptible to skin lifting. This is usually not severe and may subside within a few days. Also please let your esthetician know if you are using products containing AHA's, Retin-a, Renova or Accutane, any medications and the date of your menstrual cycle.

Authorization; I hereby authorize Le Verve MediSpa aestheticians to perform the waxing procedure. I fully understand this procedure and I acknowledge that I have had the opportunity to ask questions.

Must be 16 or older

Client Signature: _____
